None Section 3: PHYSICAL DATA Appearance: Clear very light yellow Odor: Bland Specific Gravity (20: C): 1339 pH (5% in water): 8.5-9.0 Boiling Point: 210°F Solubility in Water. Miscble Specific Gravity (20: C): 1339 pH (5% in water): 8.5-9.0 Vapor Pressure (mm Hp): No data Vapor Pressure (mm Hp): No data Vapor Pressure (mm Hp): No data Stability in Water): Section 4: FIRE AND EXPLOSION HAZARD DATA Line: Upper Flammable Limit: NA Lower Flammable Limit: NA Lower Flammable Limit: NA Stability in Wateria: Compatible with all types of fire extinguishers. Avoid directing strong stream of water into material - may cause framing. Unusual Fire and Explosion Hazards: None Stability: Stable Incompatibility (materials to avoid): Strong oxidares Hazardous Decomposition Products: Burning produces toxic vapors, intating furnes Hazardous Polymerization: Will not occur Stability (Estimated): Very low Effects of Overexposure: Acute: Event Event educations contact may cause intiation and swelling of conjunctiva. Prolonged skin contact may cause intiation at site of contact.	SECTION 2: HAZARDOUS INGREDIENTS								
Appearance: Clear very light yellow Boiling Point: 210°F Specific Gravity (20° C): 1.039 Vapor Pressure (mm Hg): No data pH (5% in water): 8.5-9.0 Vapor Pressure (mm Hg): No data Vapor Density: No data Vapor Pressure (mm Hg): No data Vapor Density: No data Vapor Density: No data Vapor Pressure (mm Hg): No data Vapor Pressure (mm Hg): No data Vapor Pressure (mm Hg): No data Vapor Density: No data Upper Flammable Limit: NA Extinguishing Media: Compatible with all types of fire extinguishers. Secial Fire Fighting Procedures: Avoid directing strong stream of water into material - may cause foaming. Unusual Fire and Explosion Hazards: None Section 5: REACTIVITY DATA Section 5: REACTIVITY DATA Stable Incompatibility (materials to avoid): Stability: Stable Conditions to Avoid: None Hazardous Polymerization: Will not occur Section 6: HEALTH HAZARD DATA <td></td> <td></td> <td>%</td> <td>CAS #</td> <td>OSHA PEL</td> <td>LD 50</td>			%	CAS #	OSHA PEL	LD 50			
Appearance: Clear very light yellow Boiling Point: 210°F Specific Gravity (20° C): 1.039 Vapor Pressure (mm Hg): No data pH (5% in water): 8.5-9.0 Vapor Pressure (mm Hg): No data Vapor Density: No data Vapor Pressure (mm Hg): No data Vapor Density: No data Vapor Density: No data Vapor Pressure (mm Hg): No data Vapor Pressure (mm Hg): No data Vapor Pressure (mm Hg): No data Vapor Density: No data Upper Flammable Limit: NA Extinguishing Media: Compatible with all types of fire extinguishers. Secial Fire Fighting Procedures: Avoid directing strong stream of water into material - may cause foaming. Unusual Fire and Explosion Hazards: None Section 5: REACTIVITY DATA Section 5: REACTIVITY DATA Stable Incompatibility (materials to avoid): Stability: Stable Conditions to Avoid: None Hazardous Polymerization: Will not occur Section 6: HEALTH HAZARD DATA <td></td> <td></td> <td></td> <td></td> <td></td> <td></td>									
Odor: Blad Solubility in Water: Hiscible Specific Gravity (20° C): 1039 Vapor Pressure (mm Hg): No data pH (5% in water): 8.5-9.0 Vapor Density: No data SECTION 4: FIRE AND EXPLOSION HAZARD DATA Upper Flammable Limit: N/A Etash Point (Method)("F): > 230 (PM) Extinguishing Media: Compatible with all types of fire extinguishers. Special Fire Fighting Procedures: Avoid directing strong stream of water into material - may cause foaming. Unusual Fire and Explosion Hazards: None Stability: Stability (materials to avoid): Incompatibility (materials to avoid): Strong oxidizers Hazardous Decomposition Products: Burning produces toxic vapors, initiating fumes Will not occur Will not occur Effects of Over yow Eve contact may cause irritation and swelling of conjunctiva. Prolonged skin contact may cause irritation at site of contact. Overexposure: Prolonged skin contact may cause diziness. Chronic: Prolonged skin contact may cause dematilits.			SECTI	ON 3: PHYSICAL DATA					
SECTION 4: FIRE AND EXPLOSION HAZARD DATA Upper Flammable Limit: NA Extinguishing Media: Compatible with all types of fire extinguishers. Special Fire Fighting Procedures: Avoid directing strong stream of water into material - may cause foaming. Unusual Fire and Explosion Hazards: None SECTION 5: REACTIVITY DATA SECTION 5: REACTIVITY DATA Stability: Stability: Stable Conditions to Avoid: None Incompatibility (materials to avoid): Hazardous Decomposition Products: Burning produces toxic vapors, irritating fumes Hazardous Polymerization: Will not occur SECTION 6: HEALTH HAZARD DATA Toxicity (Estimated): Very low Effects of Contact may cause diritation and swelling of conjunctiva. Prolonged skin contact may cause irritation at site of contact. Overexposure: Prolonged skin contact may cause dermatitis.	Odor: Specific Gravity (20° C):	Bland 1.039	Solubility in Water: <u>Miscible</u> Vapor Pressure (mm Hg): <u>No data</u>						
Flash Point (Method)(°F): >230 (PM) Upper Flammable Limit: NA Extinguishing Media: Compatible with all types of fire extinguishers. NA Special Fire Fighting Procedures: Avoid directing strong stream of water into material - may cause foaming. Na Unusual Fire and Explosion Hazards: None		. 0.0-0.0			-				
Flash Point (Method)(°F): > 230 (PM) Lower Flammable Limit: NA Extinguishing Media: Compatible with all types of fire extinguishers. Avoid directing strong stream of water into material - may cause foaming. Unusual Fire and Explosion Hazards: None SECTION 5: REACTIVITY DATA Stable Conditions to Avoid: None Incompatibility (materials to avoid): Strability: Strong oxidizers Hazardous Polymerization: Strong oxidizers Will not occur Will not occur SECTION 6: HEALTH HAZARD DATA Toxicity (Estimated): Very low Effects of Overexposure: Acute: Eye contact may cause irritation and swelling of conjunctiva. Prolonged skin contact may cause irritation at site of contact. Inhalation may cause dizziness. Chronic: Prolonged skin contact may cause dermatitis.			SECTION 4. FIRE						
SECTION 5: REACTIVITY DATA Stability: Stable Conditions to Avoid: None Incompatibility (materials to avoid): Strong oxidizers Hazardous Decomposition Products: Burning produces toxic vapors, irritating fumes Hazardous Polymerization: Will not occur SECTION 6: HEALTH HAZARD DATA Toxicity (Estimated): Very low Effects of Overexposure: Acute: Eye contact may cause irritation and swelling of conjunctiva. Prolonged skin contact may cause irritation at site of contact. Inhalation may cause dizziness. Chronic: Prolonged skin contact may cause dermatitis.	Extinguishing Media:		Lower Flammable Limit: <u>N/A</u> Compatible with all types of fire extinguishers.						
Stability: Stable Conditions to Avoid: None Incompatibility (materials to avoid): Strong oxidizers Hazardous Decomposition Products: Burning produces toxic vapors, irritating fumes Hazardous Polymerization: Will not occur SECTION 6: HEALTH HAZARD DATA Toxicity (Estimated): Very low Effects of Overexposure: Acute: Eye contact may cause irritation and swelling of conjunctiva. Prolonged skin contact may cause irritation at site of contact. Inhalation may cause dizziness. Chronic: Prolonged skin contact may cause dermatitis.	Unusual Fire and Explosion Hazards:		None						
Stability: Stable Conditions to Avoid: None Incompatibility (materials to avoid): Strong oxidizers Hazardous Decomposition Products: Burning produces toxic vapors, irritating fumes Hazardous Polymerization: Will not occur SECTION 6: HEALTH HAZARD DATA Toxicity (Estimated): Very low Effects of Overexposure: Acute: Eye contact may cause irritation and swelling of conjunctiva. Prolonged skin contact may cause irritation at site of contact. Inhalation may cause dizziness. Chronic: Prolonged skin contact may cause dermatitis.			SECTIO	ON 5' REACTIVITY DATA					
Hazardous Decomposition Products: Burning produces toxic vapors, irritating fumes Hazardous Polymerization: Will not occur SECTION 6: HEALTH HAZARD DATA Toxicity (Estimated): Very low Effects of Overexposure: Acute: Eye contact may cause irritation and swelling of conjunctiva. Prolonged skin contact may cause irritation at site of contact. Inhalation may cause dizziness. Chronic: Prolonged skin contact may cause dermatitis.	Stability:	Stable			oid: None				
Toxicity (Estimated): Very low Effects of Overexposure: Acute: Eye contact may cause irritation and swelling of conjunctiva. Prolonged skin contact may cause irritation at site of contact. Inhalation may cause dizziness. Inhalation may cause dermatitis. Chronic: Prolonged skin contact may cause dermatitis.	Hazardous Decomposition Products:		Burning produces toxic vapors, irritating fumes						
Effects of Overexposure: Acute: Eye contact may cause irritation and swelling of conjunctiva. Prolonged skin contact may cause irritation at site of contact. Inhalation may cause dizziness. Inhalation may cause dizziness. Chronic: Prolonged skin contact may cause dermatitis.			SECTION	6: HEALTH HAZARD DATA	A				
Overexposure: Inhalation may cause dizziness. Chronic: Prolonged skin contact may cause dermatitis.	Toxicity (Estimated):	Very low							
		Acute:		, °	nged skin contact may cause irritation a	t site of contact.			
Carcinogenicity: None of the ingredients of this mixture have been identified as a carcinogen or probable carcinogen by ACGIH, IARC, or OSHA.		Chronic:	nic: Prolonged skin contact may cause dermatitis.						
	Carcinogenicity:	None of the ingr	edients of this mixture have be	een identified as a carcinogen or probabl	e carcinogen by ACGIH, IARC, or OSH	A.			

*Hazard ratings and other information are based on latest available information from tests on product or ingredients of mixtures. The data and evaluations are accurate to the best of ADCO's knowledge. No guarantee or liability is expressed or implied.

			Flex
EXPOSURE LIMITS	IRRITANCY OF PRODUCT	SENSITIZATION TO PRODUCT	CARCINOGENICITY
Not applicable	Slight eye and skin	None reported	No components are listed by ACGIH, IARC, or OSHA
TERATOGENICITY	REPRODUCTIVE TOXICITY	MUTAGENICITY	SYNERGISTIC PRODUCTS
None effects reported	None effects reported	None reported	None reported

Based on known toxicity of components. No test data available on mixture.

SECTION 7: PREVENTATIVE MEASURES

SPECIAL PROTECTION INFORMATION

Respiratory Protection: None required when used as directed with adequate ventilation. When cleaning up large spills in confined areas, self-contained breathing apparatus is recommended.

Ventilation: Normal industrial ventilation is adequate. Local exhaust at work station is adequate.

Protective Gloves: Ordinarily not needed. Use chemically resistant gloves when contact is prolonged or frequent. Eye Protection: Use goggles or face mask if splashing is likely.

Other protection equipment ordinarily not needed. Availability of eye washes and adequate ventilation in work areas recommended.

STORAGE AND HANDLING:	Store in closed containers at temperatures below 50°C. Do not store in unlined metal containers.
SPILL OR LEAK PROCEDURES:	Small spills may be flushed to sewer with water. Large spills - soak up on absorbent material and transfer to
	containers for disposal as nonhazardous waste.
WASTE DISPOSAL METHOD:	Nonhazardous. Flush small quantities to sewer with water. Soak up large spills on absorbent material and transfer
	to containers for disposal as nonhazardous waste in compliance with all local, state, and federal regulations.

RECOMMENDED PRECAUTIONARY LABELING:

CAUTION: FIRST AID: Splashing in eyes or prolonged or repeated contact with In case of contact with eyes, flush 15 minutes with water. Wash skin may cause irritation. off of skin with soap and water. If swallowed, do NOT induce vomiting.

KEEP OUT OF REACH OF CHILDREN. DO NOT TAKE INTERNALLY.

This product is intended for professional use only by trained personnel.

SECTION 8: FIRST AID

Inhalation: No treatment necessary. Eyes: Flush eyes 15 minutes with water. Skin: Wash off of skin with soap and water.

Ingestion: If swallowed, do NOT induce vomiting.

IF SYMPTOMS PERSIST, SEEK MEDICAL ASSISTANCE

SECTION 9: SARA TITLE III

NOTE: This product does contain some components which are under the reporting requirements of SARA Title III, Section 313. If you are required to report discharges using Form R, SARA Title III, Section 313, information is available on amounts of reportable components.

SECTION 10: PREPARATION DATE

This information is provided for guidance only based on information we have compiled. No guarantee of accuracy or completeness is expressed or implied.
